

สร้าง Form ดังรูป

แล้วเขียน Code ดังนี้

Option Explicit

```
Private Sub cmdSendDDE_Click()
```

```
'This method is for Sending Data from Text1 to cell in Excel.
```

```
'If you want to use this method , you must set Form4.LinkMode = 1 ( Be DDE Source )
```

```
Text1.LinkPoke
```

```
End Sub
```

```
Private Sub cmdSetDDE_Click()
```

```
'Set Value for Link DDE
```

```
' Make sure the link isn't active before set link value .
```

```
Text1.LinkMode = 0
```

```
'Set Sheet Link
```

```
Text1.LinkTopic = "Excel|" & txtSheet
```

```
'Set Roll and Column of Cell Link
```

```
Text1.LinkItem = "R" & txtRoll & "C" & txtColumn
```

```
'Set Link Active in Mode Auto
```

```
Text1.LinkMode = 1
```

```
End Sub
```

แล้วลอง Run พร้อมกับโปรแกรม Excel เพื่อทดสอบการติดต่อ
